

# 2017 UROLOGY PRACTICE PERFORMANCE BENCHMARKS REPORT NOW AVAILABLE FOR PRE-ORDER!

The 2017 Urology Practice Performance Benchmark report is one of the largest, most comprehensive collections of urology-specific practice data available, giving practices unprecedented access to relevant comparative data to help guide their operations planning and decision making.

## WHY CHOOSE THIS REPORT?

- The report includes three years of trended data from nearly 500 urologists across the country.
- More than 100 practice benchmarks are presented in multiple views such as by category and physician FTE.
- The report was developed by abstracting data directly from CPT and financial reports to avoid the potential for data entry errors associated with survey-based reports.

## PRICING PER DIGITAL REPORT DOWNLOAD: \$750

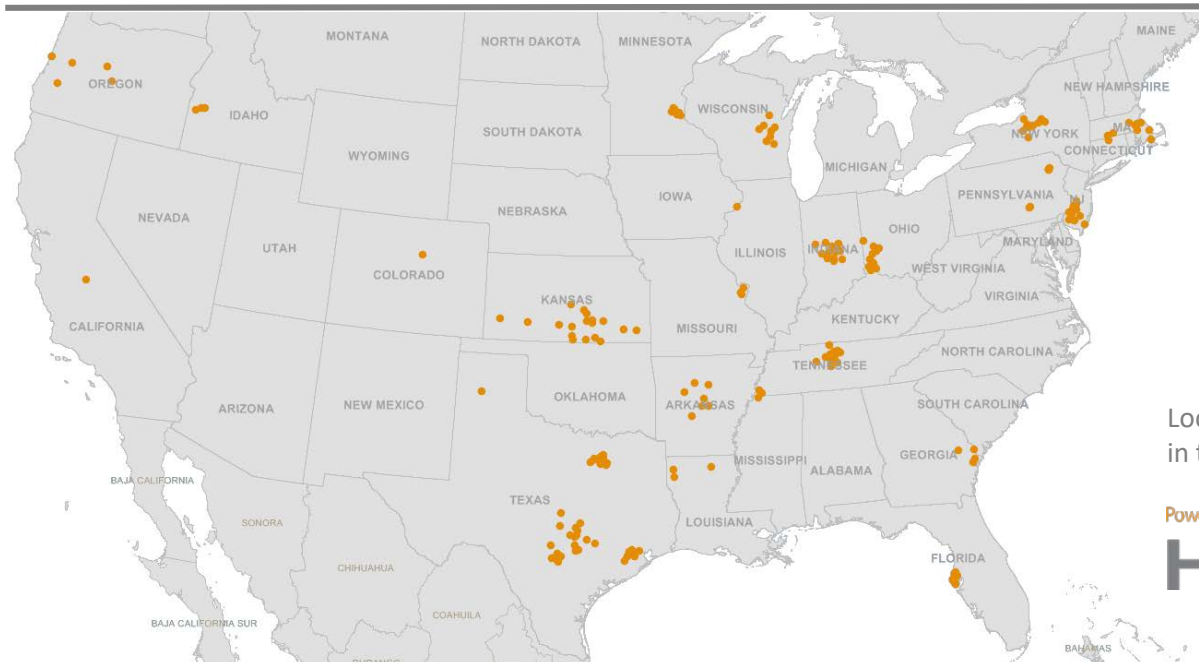

*(for practices who did not submit their 2016 data)*

If you are interested in using the benchmarks to elevate your practice's performance to the next level, our team will work with you to assess how you compare, and provide insights into the steps your practice can take to achieve your performance goals. You will receive a custom presentation that can be presented to your leadership team via conference call or in person.

## CUSTOMIZED BENCHMARK PRESENTATION: \$5,000\*

*\*Discount available to LUGPA members and 2017 Survey Participants.*

## CALL TO ORDER THE REPORT: 888-459-2692

Locations of Physicians represented in the 2017 report.
